

## A Low Emission Zone is coming to Edinburgh

**Low Emission Zones** improve air quality by restricting access of the most polluting vehicles on certain road spaces where emission standards are implemented

**Edinburgh City Council** intend to introduce the LEZ in May 2022, with enforcement beginning in June 2024

For more information on Scotland's Low Emission Zones and to register for updates please visit: [www.lowemissionzones.scot](http://www.lowemissionzones.scot)

**Edinburgh City Council** is currently running an online consultation which offers people an opportunity to make comments on the latest proposals for Edinburgh's LEZ

The consultation period began on 28 June 2021

**The deadline for comments is 20 September 2021**
